

Dr.KLP public school is one of the best schools in guntur providing ample opportunities for the students to learn and explore.

Returning to school as an alumni after 25 years made me realise how lucky i was to be a part of the school that still holds true to its principles and ambitions.

I would definitely recommend Klp public school at any time .I hope and wish our school will continue its legacy in creating best citizens of the country.

B Haritha
(1994-1995 10th Batch)

Dr.KLPP School has taught me so much, it was not just about academics. It taught me what it means to have a family outside of your real family. It was not just my school, but my second home.

I was fortunate enough to not only be able to focus on academics, but our teachers molded us in a way that we are standing in the society with our heads-up in respectable positions now. They were there al-though to helping us excel in academics, guiding us in co-circular activities, encouraging us in extra circular activities, monitoring our discipline, punctuality, manners ---all in all,aiming at our overall personality development.

Meeting friends and showing our love towards our teachers after 25years was a never in lifetime experience. This could not have taken place without the efforts of our dear friends and the school management which has cooperated our humble deed

V Padmaja
Asst Executive Engineer
AP TRANSCO
(1994-1995 10th Batch)

I am a proud graduate of KLP Public School '95. KLP school truly paved the way by imbibing confidence in me by laying the foundation stone to achieve my dream career. I am a Practicing General Dentist and Attending Dentist for the Residency Program at Lehigh Valley Hospital, Pennsylvania/USA.

Thanks to the school that taught me series of values and long-lasting friendships that I have made. I will be forever grateful for the teachers that attributed to the successes in my life thus far.

2020 reunion was nothing more than a moment in time that brought back all my childhood memories and will cherish for my lifetime.

Dr. P Subhashini
Dentist

Pennsylvania, USA
(1994-1995 10th Batch)

The person I am today is because of KLP school which has provided me the basic foundation of life. One of the best schools which was not only there to offer quality education but has nurtured us with the principles of life.

The next wonderful thing that happened unexpectedly is after 25 years, celebrating our silver jubilee re-union of our 1994-95 class mates unexpectedly. Meeting all old friends and honoring our teachers who have shaped our future is once in a life time experience....Recalled all my childhood memories and good days at the school.

Krishna Rao

LIMS application Specialist
Arcolab private limited, Bangalore
(1994-1995 10th Batch)

I attribute all my success in life and profession to the wonderful foundation I got at KLP school. Be it my strong communication skills or playing cricket talent, KLP has given me the opportunity 25 years back to excel and perform. Proud to be an alumni of such a tremendous school.

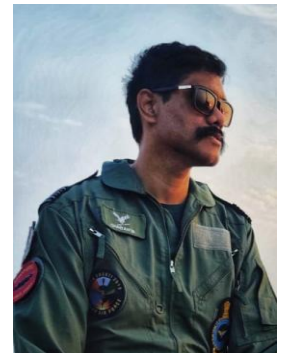

G KalyanChakravarthy

Oracle Cloud Manager
Accenture, USA
(1994-1995 10th Batch)

I was privileged to be part of one of the best schools offering CBSE pattern during my time. The dynamic curriculum and a stream of extracurricular activities offered by the school has aided me a lot in bringing out my inner self and played a crucial role in shaping my future.

The extent of support the school has offered and involvement it has displayed as part of our 25 years reunion celebrations is quite impressive and impeccable.

I am glad to know that the wonderful legacy of the school has not only continued over the years but has in fact re-structured itself to meet the rapidly changing educational system. I am spellbound by the fantastically knowledgeable teaching faculty with a blend of young dynamic teachers and professional experienced senior teachers who have been maintaining harmony and keeping up the divine culture of student – teacher relationship, the legacy which was always there with the school.

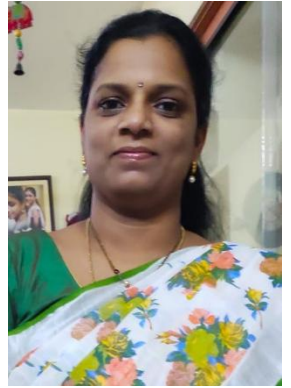

Sajja Sri Chaitanya

Wing Commander
Indian Air Force
(1994-1995 10th Batch)

I have many things to thank KLPP School for. My time at the school has laid the foundation for who I am today, both personally and professionally. I have such fond memories with KLP, ranging from friendly and efficient teachers, active classrooms, fun filled games periods, value based learning and many more.

I really appreciate my friends who made our 25 years reunion possible which will remain as the most special day for me.

It has been an honor to be a part of KLP and I am happy to see my school flourished and emerged with times to meet the global educational standards in all aspects.

PamidiLavanya
Educator
Hyderabad
(1994-1995 10th Batch)

Everyone knows the importance of education and most schools offer it, so I'm not here to emphasize that. What's needed in this global world is a well-rounded personality and KLP has done that miracle to me 25 years back.

Beyond providing academic excellence, KLP provided a diverse environment that created a place for students to feel welcomed. Students that feel included are more likely to express their opinions and further involve themselves in their future learning experiences. The teaches are well-rounded, and they care for students.

With all this support I got, I currently present myself confidently and enthusiastically before my family, friends and professionally in front of global enterprises.

After 25 years when I stepped into my school, there's this mystic connection with my friends and place which happens only when the place created a positive impression

PavaniJagarlamudi
Senior Product Strategist
Dallas, USA
(1994-1995 10th Batch)

School had to be the best time of our lives. So when I look back on our class photograph, I smell the nostalgic scent of all the tiny bits of fun that turned into a ball of amusement. That's memories, they're bound to be made and fade. Amongst my memories from school days, the scene is still clear in my mind.

From having 'stomach aches' in the morning to waiting for the last bell to ring, the eight hours of school every day seemed like they'd never end, but they did. Now that I think of school, I only remember the fun I had.

Today what I am, where I stand, what I achieved, all are because of admission in Dr, KLP Public School. The school days are the best days of my life. I clearly remember my first day at school. My school life memories are still vivid. In school I learned, cooperated, got myself motivated and groomed under the best company of dedicated teachers and my best friends. The energy I encountered in those class rooms was simply amazing, there's no other way to put it.

I'm very much pleased that we have reinstated the tradition of the reunion after 25 years. It's great honor to felicitate Dr. K Basavapunniahgaru, the elite management and the efficient teachers

Saradha Kiran Suryadevara

Throughout my time at KLP, I was surrounded by people who valued faith and integrity. The school emphasis on rigorous academics, community involvement, and leadership opportunities that has allowed me to succeed in both my college and career. I am confident that those formative years at KLP have prepared me to succeed as a person.

HimaBindu

Sarjah, Dubai

KLP afforded me many experiences that prepared me for college and beyond. I know that the values of academic excellence and moral integrity that my school had instilled in me enabled my success in a competitive

environment and helped me develop a moral compass that I will carry with me for the rest of my life.

SrujanaVallamreddy
Sales Force Admin
Dallas, Texas
(1994-1995 10th Batch)

At KLPP school, I learned many things, especially what it means to be an honorable person. I feel highly privileged to be the student of this school. I'm Proud to be a KLPian and always adore my school for keeping my roots strong

It was surely an over whelming experience to visit the school after 25 years. School hasn't changed or might be the memories are still as fresh and strong as we were during our school days. Meeting our batch was most memorable experience, and some of the girls even managed to come inspite of the hurdles caused due to covid-19.

KattaSnigdha (Advocate)
Hyderabad
(1994-1995 10th Batch)

Mesmerized to find that the school in its journey of 35 years, Visionary Chaiman and efficient staff has given doctors, lawyers, engineers, teachers, entrepreneurs to society. and Still counting and more to go.

Our reunion has culminated with 25 years back memories, 4 months of planning, 4 days of execution. Finally met childhood souls. Lot of memories to save enough for next 25 years.

Gopala Krishna
Chartered Accountant
Chennai

One of the most important lessons I have learned at KLP school is to always be kind to others, no matter what the circumstances are. I love being so close to everyone in my class because we all love each other.

There are so many reasons why KLP school is my favourite place to be. I have grown up with my class, having been at the school for years, and I feel as though we are all one big family. All of the teachers mentored us as parents and guided us throughout our learning. School has always found a way to put a smile on my face,

Dr. DKLPP school has been one of the most important parts of my life. I have been pushed to do my best and achieve all my goals.

Aditya Krishna Sai Pulikonda

Pursuing Masters in Computer Science

Arizona State University, USA

I am a proud graduate of Dr KLP Public School 2013 batch. The school was not always about academics, but focused more on the all round development which paved the way by laying the foundation stone for me to achieve my dream career. I strongly believe studying at KLP was one of the best decisions i have made in my life and the school gave me so many memories to cherish for the rest of my life starting from nursery to 10th. I can proudly say i am a loyal klpian where teachers and my fellow students became my family and the school itself my second home.

I don't intend to stress much on the study they offer which is clearly evident from the ever improving results every academic year. I want to focus on the student's personality development aspect that the school monitors all the time which actually builds a student and makes this school the first choice for any parent to join their kids. It is largely because of the curriculum the school follow that gives importance to not only studies, but also to sports and extra curricular activities which have been a constant in my life. The administration at KLP emphasize on the student's all round development by encouraging students to participate in outside competitions and support them irrespective of the end result. This helps in the overall growth of the student who can pass any test with aplomb and will not shy away from taking on challenging tasks. This quality is something every student must possess in this mercurial world and teachers and staff at KLP strives hard to ensure this be a part of every student's upbringing.

I am happy to see the school molded itself to meet the global educational standards in all aspects and will be forever grateful for the wonderful teachers and management to whom i can attribute all my success. I have nothing more to say but congratulate them for what they have achieved in all these years and am certain that the positive impact they have on students will only get better in the future.

Naga Sravani Doulatabad

Graduate Engineer Trainee, Tata Power Solar

2012-13 Batch of Dr. K.L.P Public School

I feel proud to be a KLPian. The very first thing I learnt in this school is that Participation matters much neither you win or lose. Participation/ involvement in co-curricular and extra curricular activities alongside academics helps in the overall development of a student. Our school had provided me a platform to realize what I'm capable of and helped me leverage my skills. The way we were taught in this school is so different from other schools. We were never told to remember any concept, we were taught to understand every small concept which helped me a lot in my career. I'm very thankful to all my teachers, management and everyone for creating a strong foundation which makes me feel confident in every aspect of my life.

M. Aditya Nair

Trainee, Indigo Airlines

(2011-2013 Batch)

I feel very fortunate to have spent two

crucial years of my life at Dr K.L.P public school. These years helped me shape up my career. I have been lucky enough to have very good teachers who spend a lot of time on improving the performance of students. The school has shaped me in such a way that today i feel confident in each and every aspect of my life.

&

Lakshmi Ojaswini Siripurapu,

B.Tech Systems Engineer

Infosys- Hyderabad 2011-12 batch

I am Vamsi Krishna Annavarapu, a loyal KLPian from the 2012-13 batch. Currently, I am pursuing my Masters in Germany. I am working on Fluid Dynamics on High-Performance Computing using Super Computers. I am also working on Vehicle Dynamics in a company Engineered4Solutions with major clients like Audi and BMW.

Sometimes in life, it is best to take a step back and look at the big picture. With all the demands and commitments that life can put on a person, sometimes the essence of education from a place that has given strong roots for the position we are in should always be remembered. Education is an essential part of our lives. School serves as the first learning place. Similarly, in my life, it was the first spark in receiving an all-round development. I feel blessed to study in one of the most prestigious and esteemed schools of the city, Dr. K.L.P Public School. I don't call it a school, it's my second home where I have the privilege to visit it at any time in my life.

Concerning geography, I would like to recollect my school by dividing it into two parts the front field and the backfield. The front part is where I got to learn the most important basics of my life whereas in the backfield, i.e the school ground, for which the school is famous for, is where I got the chance to stay fit. Teachers, school mates, school bus, canteen, playground, etc. I enjoy the nostalgia in writing these.

Let me be honest, I was a hyper-active, super mischievous student during my school days. The first thing I learned during my schooling was humility. A school is a place where we get to learn values. One can get to learn any subject with private tuition but not character and values. I joined KLP in my 8th grade, whereas my classmates were there from earlier but till date, I was never treated as a new student. School has adopted me so well that I never felt alone.

I am a motivational speaker by interest, most of the stages I have delivered speeches I always had a common question at the end. "Where have you done your schooling?" at that moment I felt proud of my school and felt privileged that I got to study in such a school which has encouraged talent and shaped every student's future to the individual capability. I strongly believe that co-education is a good platform where we get to know more about other students. The kind of atmosphere created, the freedom given by the school was and I believe till date was by the students with a broad and mature mind. This kind of mentality and individual temperament was shaped by my school.

It's obvious that everyone likes their school, but when KLP students speak to others, I have observed that some of the students felt that they had some void in their schooling. This sums up the perfectly balanced education, sports, extra-curricular activities, team events, etc were given to every student. Stress-free education, freedom to think and express one's views are some of the positives I felt during my schooling.

After 2013, I have been quite a few times to the school, I am still treated as a school student by the teachers and management. I am a bit jealous about the consistency of my teachers still show towards every student even after we pass out. This kind of behavior, attitude towards students is not something which is trained, this is a natural instinct of every teacher who joins KLP!

Lastly, I would take every time to thank my school for providing me with a skill set that can be used at any time in my life. I would thank my parents for joining me in Dr. K.L.P Public School, I am always grateful to my teachers, management for providing me a great platform.

Thanking you,

Vamsi Krishna Annavarapu.
